SYSTEMS **BUILDING IT SUCCESS**

- More then 25 years of experience
- South Tyrol, Triveneto, Austria
- 3 locations (Bozen, Bruneck, Schlanders)
- over 60 employees
- IT Basic, Data Protection, Business Productivity, Digital Business Development

Breaking the Monolith.

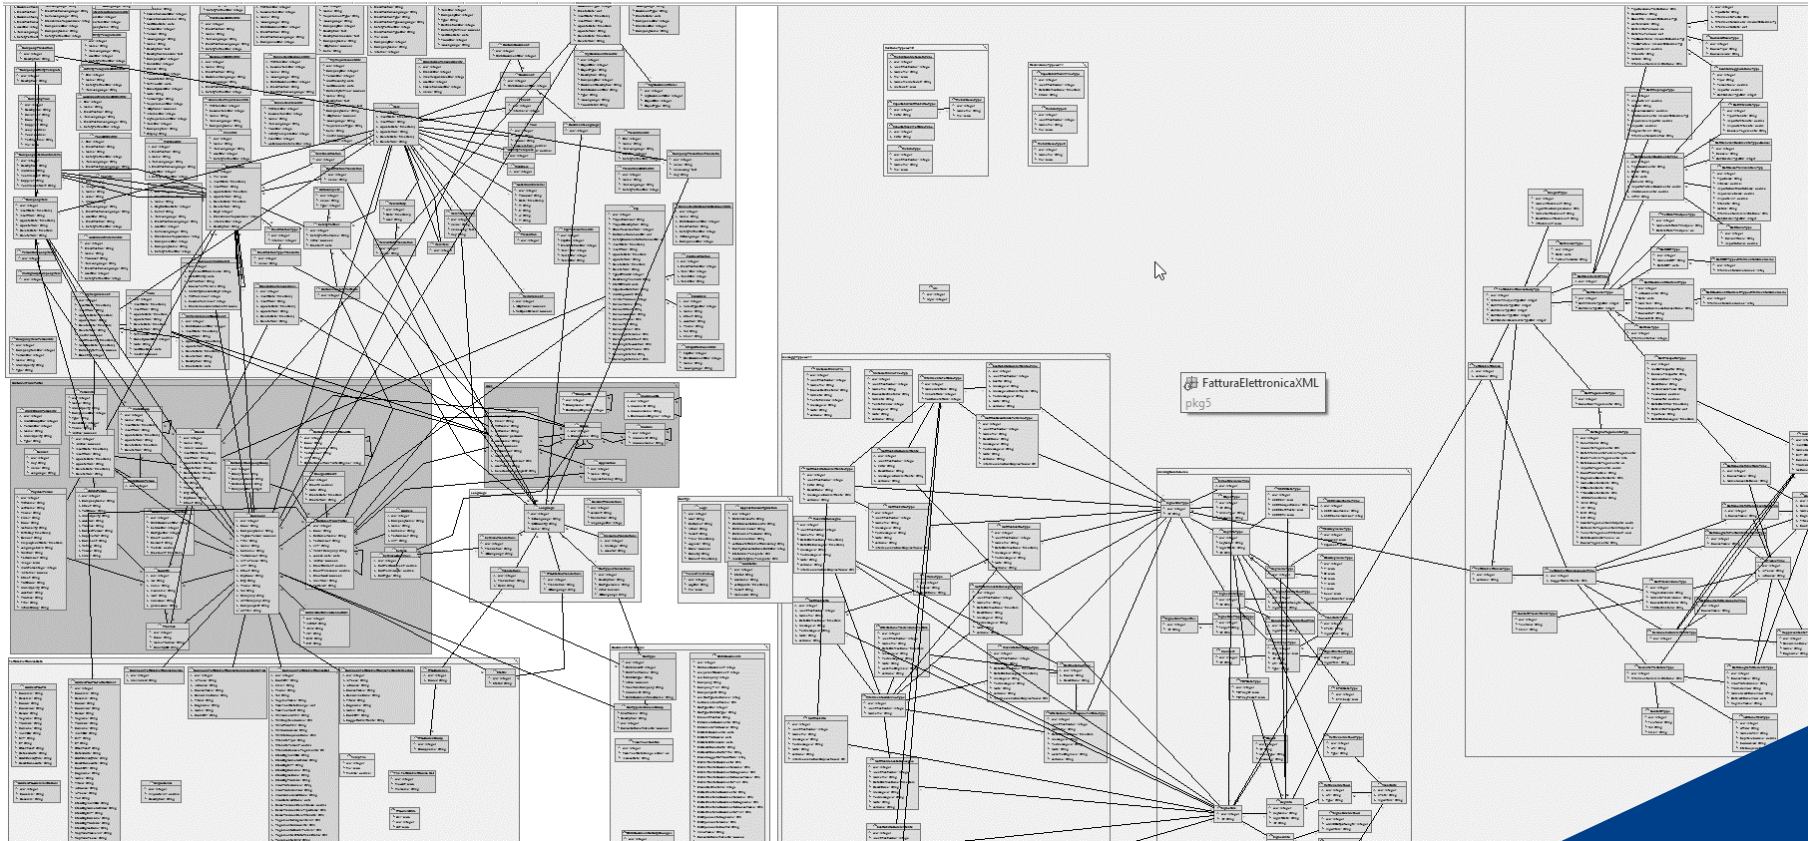

Why we want to do it.

Why Microservices?

- Technology
- Resilience
- Scaling
- Deployment
- Organizational Alignment
- Composability
- Optimization for Replaceability

Our system

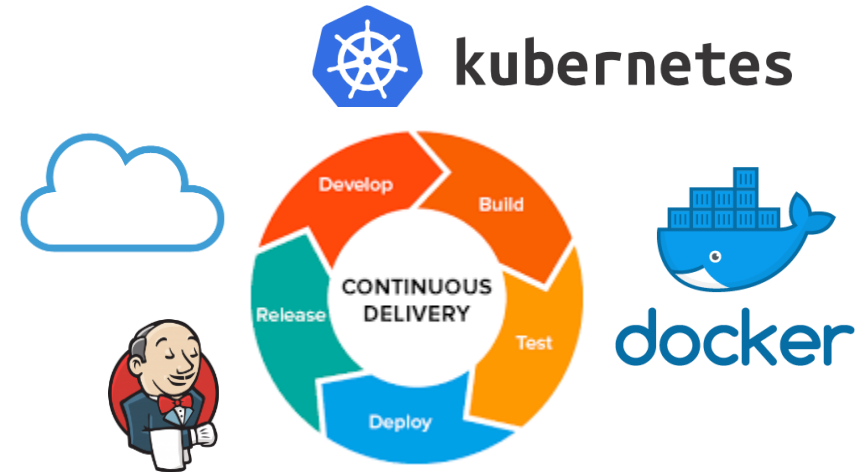

Our reasons

- Scary deployment and replacements
- Usage peaks
- Need of specific technologies
- Different purposes

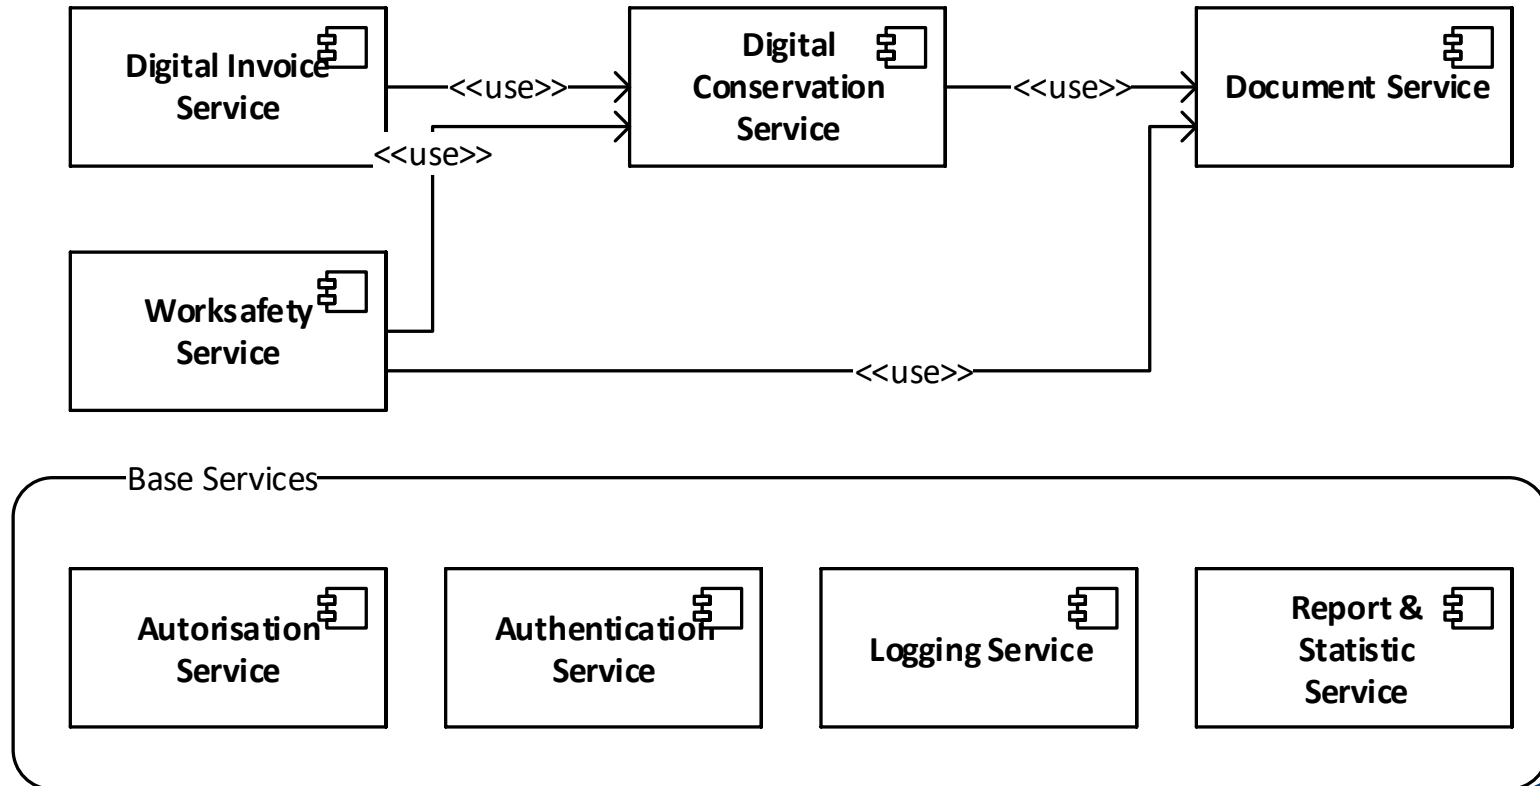

Pre-Requisites

- CI and CD Pipeline
- Automated Testing
- Containers
- Cloud

How we split our monolith

Our lessons learned

- Make small steps
- Create a strategy before start working
- Talk to others and experts

Because Microservices
aren't easy and not for every
kind of solution!
